Presents
Newsletter (I term)
2020-21

Learning never stops

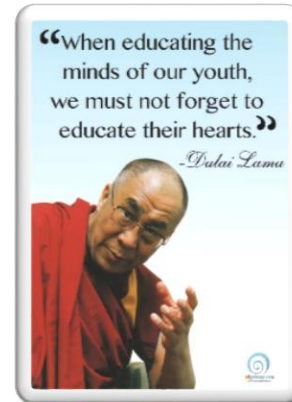

From the desk of Principal

It gives me immense pleasure to bring out the newsletter. It mirrors the achievement of our tiny tots giving them the much needed encouragement to reach greater heights. Education is a life-long learning process. Learning happens all the time. It happens in the home, between home and school too. School is important but so is your health. But [Coronavirus](#) has forced the world to reinvent and reimagine the usual. Online classes have become the new normal. The whole purpose of this quarantine time is to keep many of us safe and healthy.

Paramhans Prasad Yadav

Principal

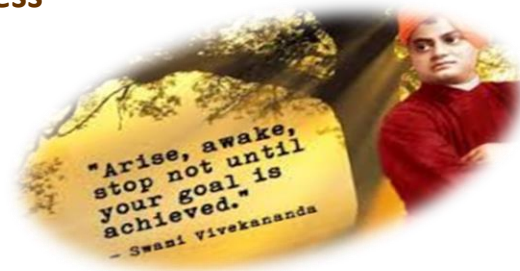

From the desk of Headmistress

During the pandemic, teachers have gone above and beyond to ensure that the education of students is not hampered. We are doing our best to conduct activities online so it is a whole new experience for our students and us too. During these times, we have planned activities in such a way so as to make learning a lifelong and joyful experience to our students.

Dimple Balodi
Headmistress

Dear Readers

The COVID-19 pandemic has created the largest disruption of education systems in history, affecting learners and teachers as well. Preventing a learning crisis from becoming a generational catastrophe requires urgent action from all.

The massive efforts made by KVS in a short time to respond to the shocks to education systems remind us that change is possible.

In these tough times KVS has equipped and regularly training all teachers to make online teaching learning smooth, effective and progressive.
